Analytical camera activations	5168
Calibre response dispatched	309

Crime summary

When we reviewed our crime statistics for May 2024, we observed that the situation remains stable and under control, thanks to our improved planning and focused response teams.

As part of the Calibre team, we encourage you to conduct inspections at home to ensure your security systems are functioning properly. Please check your alarms, batteries, beams, outdoor lights, and panic buttons. If you need any assistance, do not hesitate to contact our technical team!

Notice to homeowners and tenants

Once again, we need to provide feedback with an URGENT APPEAL for your assistance. Please ensure that all doors, sliding doors, windows, and garage doors are closed and secured, as we have noticed many are still being left open.

March: 35

April: 44

May: 47

We all need to take serious action to ensure all doors, sliding doors, windows, and garage doors are closed. Leaving these open triggers unnecessary alarms, causing additional trips to and from houses. This wastes valuable time that could be better spent on crime prevention efforts.

Notice to Service providers

We are pleased to report a significant reduction in false alarms following our newsletter and social media discussions. This improvement has been closely monitored by our control room and response teams. Thank you to all homeowners and service providers for your efforts in minimizing false alarms. We will continue to monitor the situation and address any parties still not adhering to our requests.

We understand that some homeowners initially misunderstood our intentions. We hope it is now clear that this initiative is not a money-making scheme but a genuine effort to reduce unnecessary alarm activations.
