False Alarms triggered by Service Providers:

After several months of monitoring, we have identified the following patterns in false alarm triggers:

June	14 incidents
July	26 incidents
August	15 incidents
September	10 incidents
October	26 incidents
November	24 incidents
December	27 incidents

Once again we have seen a rise in unnecessary alarm activations over the past three months due to service providers failing to notify Calibre before entering protected premises. To ensure smooth operations, please make sure our office is notified prior to entering any Calibre-protected property. Continued non-compliance will result in further action as we strive to minimize these disruptions. Additional notices will be issued to both clients and service providers to address this ongoing issue.

**STAY VIGILANT AND CAUTIOUS-
REMEMBER WE'VE ALWAYS GOT YOUR BACK!**
