ARRESTS & RECOVERIES

- **Arrests:** 1 arrest linked to an incident of theft.
 - **Recoveries:** Various items recovered relating to incidents in Philippa & Frank Road.
-

ATLAS CAMERA ACTIVITY SUMMARY

- Total Activations: **20,260**
 - Calibre Response Dispatched: **721**
-

LOCAL PATROL COVERAGE – 41, 850km

In December, our response vehicles covered 41,850 **kilometers** across the community. During the festive season, we conducted additional patrols to ensure the safety and security of our community, allowing everyone to enjoy a well-deserved, worry-free holiday.”

CRIME TRENDS (Past 2 Months)

November	5
December	12

 **Crime Trend:** An increase in criminal activity was recorded this month, largely due to the significantly higher number of visitors in town during the festive season. We are aware of the primary individuals responsible for these incidents and are working closely with SAPS to identify, locate, and effect arrests. Residents are encouraged to remain vigilant, ensure that all properties are properly secured, and report any suspicious activity immediately. Ongoing cooperation between the community, Calibre, and SAPS remains essential in maintaining a safe and secure environment.

PROPERTY SECURITY: UNSECURED HOMES

November	14
December	32

 Residents and tenants are urged to remain vigilant by ensuring doors are locked, alarms are activated, and all access points are properly secured. During this month, a significant number of homes were found to be left unsecured. Taking these precautionary measures plays a critical role in preventing crime.

NOTICE TO SERVICE PROVIDERS

False alarm incidents caused by service providers:

| October: 18 | November 13 | **December 26**

Important Reminder:

An increase in service providers on site this month has resulted in a higher number of avoidable false alarms. These activations not only trigger unnecessary response deployments, but also generate multiple calls from concerned and frustrated neighbours, placing additional strain on our control room and response teams.

To reduce this, **all service providers must contact the Calibre office prior to entering any premises.** This ensures our control room is aware of on-site activity, prevents unnecessary alarm activations and response deployments, and allows our teams to manage time and resources more efficiently.

Your cooperation in this matter is essential and greatly appreciated.

Thank you to the homeowners who notify us in advance - your cooperation plays a key role in reducing false alarms and supporting our response teams.

KEEP CALM AND CALL CALIBRE

Late-night alarm? Quick system check? Need reassurance? – **we've got your back 24/7**
